Serial No. 1

BRIEF ABSTRACT OF LETTER.

States that in addition to 169 Hospl Assts (including 2 male Apo-
thecaries and 6 reserve Hospl Assts) employed in the med^l Dept 3 more
Hospl Assts are required as shown in the Statement list^d and suggests
that a reserve of 20 p.c of the total strength is necessary to meet
the calls on the med^l Dept for medical help.

NOTES AND ORDERS.

In G.O no: G 4298-9 of 2.3.04, the no: of Hospl Assts
of all grades was fixed at 164 ^{including 6 reserve. 76. A and} ~~including 6 reserve. 76. A and~~

2 male apothecaries The Senior Surgeon was authorized to entertain
5 add^l Hospl Assts, (vide G.O orders quoted in the
Senior Surgeon's letter) The total ^{sanct^d} number of Hospl Assts

Serial
No.

at present is 170 (including 2 apothecaries,
6 Senior Hosp^l Asst^s and one Hosp^l Asst to be deputed
for duty under the Planters who ^{undertook to} subscribe to the
Dresser Fund).

2. The Senior Surgeon has shown in the statement
received with his letter that 172 Hosp^l Asst^s
are absolutely required as detailed below: ---

Victoria Hosp ^l , Bangalore		50	} Vide also the Compara- tive Statement appended hereto.
Dist Hospitals & the Chemical Laboratory			
Bangalore Dist ^l H ^l	22		
Kolar Dist	15		
Tumkur do	11		
Mysore Dist	27		
Hassan Dist	12		
Ghumsa D	14		
Kadur ~~Chitalomg~~ do	12		
Chitalomg Dist	9		
Total	172		

3. The no. 172 ~~demanded~~ includes one Hosp^l Asst^s
to be deputed for duty under the Planters who
subscribed to the "Dresser Fund". ~~has been~~ A
refce from the Senior Surgeon re: increase to the
strength of Hosp^l Asst^s by one, & as to enable an
add^l Hosp^l Asst^s being ^{allowed for} ~~provided for~~ ~~on~~
the Balace dispy, is pending orders of Govt.
But the figure 172 includes 1 Hosp^l Asst^s
for each of the Female Dispensaries at

Serial
No.

Kolar, Hassan & Shivagondw for H. H. the
maharajah's Hospital at Mysore. It is not
known whether Lady Apothecaries cannot be
put in charge of some of these dispensaries.
A statement showing the distribution of the
Lady Apothecaries in service will perhaps
clear this point.

4. The G.O. of 2.3.04 made provⁿ for 6 Hospital
Apts being kept in reserve. The Senior Surgeon
in his present letter suggests that a
reserve of 20 p.c of the total sanctioned strength
is necessary, as in Madras.

5. With reference to para 5 of the Senior Surgeon's
letter, attention is invited to para IV of the
rules issued with G.O. no. 8139 of 27.6.07
(G.O. no. 12-06-68) according to which 8 Asst Commrs are included
in the sanctioned scale in account of casualities,
absences or leave etc.

6. The proposal in question involves addition
to permanent recurring expenditure of the
medl deptⁿ and Branch II has to be consulted.

7. Dtd for orders.

23.7.10. 8. To fill sanctioned posts
it seems necessary to increase
the number of Hospital Apts
to 172 and if one more Hospital
Apt is sanctioned to the Palace

Serial
No.

as asked for, the number will have to be increased to 173.

— 9 It is a question how many should be entertained as a reserve for leave &c. The Senior Surgeon suggests 20 p.c. of the above number.

— 10. As we had a number of medical pupils, the want of more hospital Apts does not seem to have been very keenly felt ~~but~~ but now they have all been absorbed.

Secy) 27.7.10. Jell

11. A reserve seems to be very necessary as when H. As go on leave etc only a properly qualified man should be put in temporary charge of the dispensary or other work. A reserve of 34 Officers is perhaps larger than ~~absolutely~~ we may perhaps first try a reserve of 10% of the effective strength or 17 Officers. These places can be filled by the medical pupils who pass out with scholarships given by the State. If there are no passed medical pupils now in service then pay which saved will meet the extra cost.

13. If a careful allotment of the existing number
a certain number cannot be found who headed
a reserve a second time of reserve will have who
provided. 10 per cent seems perhaps to be too much
the less.)

18820

of 27.6.10

14. I have carefully read the Senior
Surgeon's letter* and the statement
accompanying it

including 6 for
reserve. m

charges is
apparently
what is meant

15. The statement shows that under order
of Govt. the number of H.A.'s charges
is 169. Against this there are 169
Hospital Assistants. It is not therefore
clear why 3 H.A.'s are required to
fill the sanctioned posts. There may
be reasons, but what I mean is that
the statement does not make it clear.
However this is a minor matter; there
is no objection to the number of H.A.'s
being brought up to the number of
charges including a reserve of 6 which
is sanctioned.

16. The main point is whether the
large addition of 20 per cent to the

Serial
No.

cadre for reserve as proposed by the Senior Surgeon is called for. In this connection I beg to point out a fact which seems to have been overlooked.

17. On glancing through the columns of the statement it will be seen that many of the institutions marked 1 to 13 have more than one H.A. on the scale. For example the Victoria Hospital has 11, General Hospital Mysore 6 and so on. It will also be noticed that most of these institutions are actually managing with a much less number of H.A.'s e.g. Victoria Hospital with 7, General Hospital Mysore with 3 and so on. In fact, these 13 institutions manage with 30 Hospital Assistants in the place of 50 the total of the scales noted against them. The inference from this seems irresistible that the reserve for the cadre, with the exception of 6 shown separately, is distributed amongst the scales of the larger institutions.

18. If that be so — and a comparison of columns 3 & 4 in respect of the institutions numbered 1, 3 and 4 to 12

Serial
No.

in the list. leaves no doubt in the matter the claim for an additional reserve besides those included in the scales of the major institutions and the six shown separately falls to the ground.

19. Of course in col 5 the Senior Surgeon says that the scale in col 3 is absolutely necessary. This must be taken to mean that to increase the number to that extent would be an improvement. Admitting even that there is at present no money for effecting such improvements.

20. The total number including reserve which the Senior Surgeon wants is 206. This is evidently worked out as being 120 per cent of 172. But the number 172 admittedly contains at least 6 reservists. So the Senior Surgeon wants reservists not only against appointments but on reservists also!

21. The whole fallacy of the situation arises from ignoring that the total number of 169 (or 172 if the Senior Surgeon's figure is correct) contains about 26 reservists — 6 explicitly shown as such & 20 distributed amongst the major institutions. Ignoring this a

141

Serial
No.

fresh reserve of 20% is asked for not only on the number of charges proper but on the 26 reservists as well.

22. In any case the financial position does not admit of an addition of 34 or so being made to the cadre of Hospital Assistants.

25/11/10

23. Submitted with the opinion of the Financial Secretary for orders.

K. G. S. Secy) 30.11.10 M.L.L.
28/11/10.

I don't like to discuss the case personally with the Asst Secy.

24. There is no doubt some force in the Comptroller's views but he apparently forgets the fact that the Senior Surgeon had at his disposal the services of 44 passed medical pupils (who were as good as Hospital Assts though without the name) who formed ~~the~~ a reserve & who replaced the regular H.A.s who were spared for other duty from institutions like the Victoria Hospital & the General Hospital Mysore. Without

Serial
No.

further details at this point it would not be right to argue that the Dept. can get on without loss of efficiency with 30 men for the important hospitals against 50 provided in the scale of 1904.

25. It is doubtful if the Comptroller is correct in saying that the number of 172 men referred to by the S^r 8ⁿ

itself includes a reserve of 6 men as sanctioned in 1904. The reserve men sanctioned seems to have been absorbed by "posting" them to new charges created since 1904.

26. If the Senior Surgeon's figures are to be accepted there are 172 charges now as against 158 in 1904, & this number of men is absolutely necessary. He wants in addⁿ a reserve of 34 men but the Comptroller says no reserve is necessary & that the 172 itself ought to provide containing a reserve in itself.

27. Before final orders it seems desirable to consult the S^r 8ⁿ w^o.

When a large number of vacancies occur on the other hand amongst the Hospital Staffs there are no trained men available as compounders cannot be converted into Hospital Staffs.

would it be of the other large Institutions like the General Hospital Mysore had only one R.A. attached to each - "managing" with a less number does not mean that a less number is all that is required. They are "managing" because there is no help from the number shown under Column I in the Statement against each Institution is what is absolutely necessary of efficiency of work & full measure of consideration relief to the suffering are to be kept in view.

The Department often with the experience of the need of extra Hospital Staffs especially in seasons of epidemics has represented its want in No. G-612 dated 27-6-10.

In a strength of 65 Hospital Compounders there is a reserve I believe of eight. Only per cent of reserve asked for by this Department cannot therefore I submit be considered as extravagant. Specially because the chances of deaths amongst those who have to deal with epidemics, infectious diseases is are greater in the Medical than in the other departments.

A reserve is also wanted because whenever an epidemic breaks out in any corner of the Province Hospital Staffs (other than those who have the charge) have to be sent thereto.

I need not therefore once again point out that for replacing men on leave - men on other

	39. The total number of institutions for the treatment of women exclusively including the two shown in the office note above as having been sanctioned subsequent to the order of the 2nd March 1904 is eleven in the following places:— (1) Hassan (2) Chikmagalur (3) Chitaldrug (4) Shimoga (5) Tumkur (6) Kolar (7) Kolar Gold Fields (8) Mysore ^{materank} (9) Bangalore ^{materank} (10) Sagar and (11) Chikballapur. Of the nine female apothecaries employed two are working in the Victoria Hospital, Bangalore and one in the General Hospital, Mysore. If these two institutions require three female apothecaries or hospital assistants between them five ~~more~~ ^{additional} female hospital afsts should be appointed as suggested by the Senior Surgeon for work in the female institutions. Otherwise, the number may be reduced. --- 40. The dispensaries in the

Serial
No.

following seven places are re-
garded as charges of Gazetted
medical officers and not of
Hospital Assistants:— (1)
Davanagere (2) Nanjangud
(3) Mudgere (4) Sakalespur
(5) Seringapatam (6) Aralepet,
Bangalore City and (7) Gangarpet,
Bangalore City -

41. The Local Fund Dis-
pensaries in other places are
regarded as Hospital Asst charges.

18 Cr) 28.3.11 Will

42.

I should think that it is
unnecessary to have gazetted
medical officers in charge
of Nanjangud, Seringapatam
Aralepet & Gangarpet in
Bangalore city. These
dispensaries may be as well
manned by Hospital Asstts.

It may be taken that
172 Hospital Asstts are actually
required for the existing
charges - and I have
already stated that a

51.

From the calculations given in paragraphs
35, 36 & 37 in these notes it appears that
the sanctioned number of Hospital Assistants'
charges is not 172 but 167 or rather 166
omitting the Planter's Dispensary & A. at Kundjore.
The Senior Surgeon has made up the number
to 172 by including six charges which have
not yet been sanctioned by Govt as Hospital
Assistants' charges. Some of these do not appear
to have been sanctioned at all while others seem
to be ^{be recognized} ~~be recognized~~ as charges of female
apothecaries. In any case the number cannot
be increased without considering in detail the
six cases proposed to be added by the Senior
Surgeon viz

2 for Kolar Gold Fields Hoque Camp.

1 for H. H. the Maharajas Hospital Mysore

1 for Female Dispensary at Kolar

1

Shumpe

1

Harran.

52.

The last three are rendered necessary because

Serial
No.

three of the female Apothecaries are kept attached to the Victoria Hospital Bangalore and General Hospital Mysore. The necessity or authority for doing so is not clear.

53. However that may be there can be no objection to there being as many Hospital Assistants as there will be charges sanctioned by Govt. At present the number is 166 and ~~are~~ there are 169 Hospital Assistants. If the number of charges is permanently raised to 172, 3 new H.A.'s may be sanctioned.

54. But I beg respectfully to differ from the opinion of the Council that 11 additional men are necessary as reserve viz. 2 ~~each~~ for each of the districts of Kolar, Shimoga + Mysore + one ~~each~~ for each of the other districts. I do not deny that ~~each~~ a reserve is necessary but I maintain that the reserve is included in the ^{scale of the} district Head Quarters hospitals. These scales are as shown below:

Bangalore (Victoria Hospital)	—	11
Kolar District Hospital	—	4
Tumkur D ^o	—	4
General Hospital Mysore	—	6
Hassan District Hospital	—	4
Shimoga D ^o		4
Chital Drug D ^o		4
Chickmagalur D ^o		4

Serial
No.

If proper statistics regarding the number of cases treated be available it may not be difficult to prove that one man in ^{each of} ~~all~~ the hospitals + two in some may be regarded as reservists who can be detailed without inconvenience to relieve others temporarily at outstations.

55. The fact that each of these hospitals do actually generally work with one or two hospital assistants short in each (vide column 4 of the statement attached to the Senior Surgeon's letter under consideration) clearly shows that the Dist Headquarters scale includes the District reserve also.

56. The provision of gratuitous medical relief is certainly one of the most desirable objects at which Govt. money can be spent. But the interests of economy also require that the existing staff should be fully utilized. If this is done there should not be any necessity for a ~~separate~~ general reserve in addition to the District reserves already included in the scale of the Headquarters hospital.

Submitted to His Highness.

Paper under
disposal

58

These papers relate to a proposal made by Col. Smyth to increase the cadre of Hospital Assistants in Mysore.

T

2. In 1904 the cadre was fixed at 164 including a reserve of 6. Since then five additional appointments have been created from time to time bringing up the sanctioned cadre to 169. This is the present number of Hospital Assis-

Enclosure to
"Paper under
disposal"

tants. The statement submitted by the Senior Surgeon shows 172 Hospital Assistants' charges, which means that not only is the reserve of 6 absorbed, but an addition of 3 more is necessary for the regular charges alone, without maintaining a reserve. The Senior Surgeon also proposes that, as in Madras, a reserve of 20 % of the number of sanctioned appointments be maintained on account of leave, epidemics, etc., This would raise the cadre to $172 + 34$ or 206.

3. There is some discussion in the office notes as to the number 172 which, the Senior Surgeon says, represents the number of Hospital Assistants actually required. From an analysis of the state^{ment} accompanying the Senior Surgeon's letter, this number seems to be arrived at as follows:-

Sanctioned in 1904	164.
Deduct reserve	6.

	158.
Add appointments since sanctioned. 5.	

	163.
Deduct charges abolished (3) and those held by Gazetted officers (2)	
	5

	158.
Add on account of additional requirements as shown below	14.

Total...	172.

One each for the 3 female
dispensaries at Kolar, Hassan
and Shimoga. 3

One for Maharani's Hospital,
Mysore..... 1

One each for dispensaries at
Whitefield, Chickballapur,
Bethmangala, Chelur (newly opened)
Nyanti and Sagar (some of these seem
to have been formerly held by
Gazetted officers) 6

Attached to Head Quarters
Establishment..... 1

For employment under Mudigere
Planters' Association (since
decided to be not required) 1

Attached to Kolar Gold Fields Plague

Camp	.	.	..	..	..	2.
------	---	---	----	----	----	----

14.

4. There is some doubt about some of the items included in this number 14, but on the other hand there are some other requirements which have apparently not been taken count of in the Senior Surgeon's list, e.g. one hand each for the female dispensaries at Chickballapur and Sagar (the latter has not yet been opened), and one additional hand for the Palace dispensary, Mysore, according to a requisition received sometime ago from the Palace Officer. On the whole therefore the number 172 may be taken as the number of Hospital Assistants required for sanctioned charges.

Pages 5-8 5. The Financial Secretary in his note dated 25th November 1910 says that there is no objection to the number of Hospital Assistants being brought up to the number of charges including a reserve of 6. But he objects to the addition of a reserve of 20 %, the reason urged being that a reserve is already included in the number of hands sanctioned for the Victoria Hospital, the Mysore Civil Hospital and the 6 other District Hospitals. *Notes* E.g., Mr. Chakravarti contends that out of 11 hands sanctioned for the Victoria Hospital, some must be regarded as a reserve. Some of the arguments of the Financial Secretary appear to be based

based on a misapprehension of the facts, due to imperfect presentation of the case by the Senior Surgeon, but his general argument is clear. As against his view it may be noted that soon after the cadre was fixed at 164 in 1904, the entertainment of 44 passed medical pupils was sanctioned by Government. These served as a reserve, but they have all now been absorbed in the regular cadre or have resigned and left the service.

6. The subject having been considered in Council the Council is of opinion that the number of Hospital Assistants required for sanctioned charges may be fixed at 172 and that in addition a reserve of 11 men (2 each for the Mysore, Kadur and Shimoga Districts and 1 for each of the other Districts) may be maintained, making a total of 183.

7. The increase in the number will therefore be 183-169 or 14, and if the increase of the pay of Hospital Assistants recommended in another file submitted to-day is sanctioned, the increase of cost on account of these 14 men may be roughly taken at about Rs. 8,000/- a year.

8. The ^hpapers having been sent back to the Financial

Secretary as required by para 8 of the Government Order of

6th May 1907, Mr. Chakravarti says that if the number of charges is permanently raised to 172, 3 new Hospital Assistants may

be sanctioned, but he respectfully differs from the opinion of the Council that 11 additional men are necessary as reserve as he maintains that the reserve is included in the scale of the District Head Quarter Hospitals.

9. I submit the papers for orders.

Office of Senior Surgeon, Mysore Govt.,

Dated, Bangalore, 27 6 1910

From 9331

Lt Col John Smyth, M.D., I.M.S.,

Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

C.S. Balasundaram Iyer Esqr., B.A.,
Offg Secretary to the Govt of H.H. the
Maharaja of Mysore, Genl Rev Deptts
Bangalore

Sir,

J. Government in their Proceedings No G.4298-9 dated 2nd March 1904 sanctioned 164 Hospital Assistants for the whole State. This number included two male Apothecaries as also 6 as reserve.

2. Subsequent to this there were entertained 44 Passed Medical Pupils who have all now become absorbed in the cadre of Hospital Assistants.

3. The accompanying statement gives details of the present strength viz.- 169 including 2 male Apothecaries as sanctioned by Government from time to time in the Government Orders as per margin, its distribution - as also the number actually now required to be allotted to each Institution as per Government Order No G 4298-9 dated 2-3-04 from which it will be seen that the additional number of Hospital Assistants actually required to fill sanctioned

G.G.No.F1.2189-92/Munl.610-04-7 dated 25-9-05) posts is 3, making a

Received

General No. G. 612
No.

Enclosure No. 2

SUBJECT.

Pointing out the necessity
of having Reserve Hospital
Assistants.

necessary - making a grand total of ~~267~~.

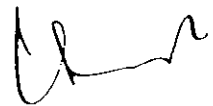

4. In the Madras Presidency there is allowed a reserve of 20 per cent over & above the effective strength. Such reserve is by no means an extravagant one for the Mysore Medical Service in view of the high sick rate prevalent amongst the Hospital Assistants, the prevalence of epidemics and the more frequent calls on the Medical Department for help in health work.

5. You are aware that due provision has been made in the Revenue Department of the State for a certain reserve of Assistant Commissioners in view of replacing men that retire, proceed on leave and so on and I have the honour to strongly press upon the notice of the Government the absolute necessity of sanctioning the requisite reserve of 20% of Hospital Assistants at their very earliest convenience, so that I may be in a position to readily dispose of leave applications, requisitions from the Health Department, &c., and see that no obstacle is placed in the way of the smooth working of the Department.

I have the honor to be,

Sir,

Your most obedient servant,

M.D.

Lt.Col.I.M.S.

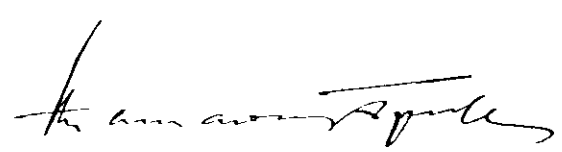

Senior Surgeon, Mysore Government
